

LED Panel Light | 300 x 600mm | (2 Pack)

<u>Technical Data:</u>	
Chips Type/Brand:	N/A
Wattage:	60w
Lumens:	100lm/w- 6300lm
Colour Temperature:	4,500K/5,700K
Dimmable?	No
Beam Angle:	N/A
Voltage input:	AC220-240V
IP Rating:	N/A
Lifespan:	30,000 Hours
CRI:	N/A
IK Rating:	N/A
Working Temperature:	N/A
Power Factor:	0.97
Warranty:	N/A
Dimensions/Cut out:	N/A
Certificates:	N/A
Material:	N/A
Application:	Ceiling

Back Lit 1200 x 600 LED Panel with white frame has a rectangular design and an elegant finish. This ceiling LED panel has a high efficiency and emits a brightness of 6300 lumens, equivalent to that emitted by conventional fluorescent panels of up to 160W. This means higher efficiency than conventional panels. Its lifespan is 30,000 hours, 10 times the life of a conventional panel. Therefore, not only does it consume 80% less energy, but it is much more durable.
