

Technical data:	
Input:	220-240V 50/60 Hz
Colour Temperature:	6000K
Battery:	3.7V 3Ah 18650
Charging time:	12 H
Emergency time:	>3 hrs
Applicable environment:	0°C- 40°C
Rated life battery:	4 Years
Warranty:	3 Years

This LED spotlight is pre-wired for easy installation, and in addition, has an IP rating of IP20 so is suitable for use indoors. Furthermore, it can be mounted in the ceiling. The 3W LED pin spot is ideal for use in corridors, stairwells and other places needing an emergency unit. Not only is it perfect for use in Offices & commercial applications, but it also features a compact design and delivers continuous illumination for more than 3 hours from a 24 hour recharging time. Allowing for residents and/or employees to evacuate from a potential emergency situation when the mains lighting has been compromised. Often used in conjunction with LED Panel Lights and recessed Round Panel Lights.

The reason for escape route lighting is to enable safe exit for all occupants. By providing appropriate visual conditions and direction-finding on escape routes and to ensure that fire-fighting and safety equipment can be easily located and used.
