Material:	Polypropylene & Polycarbonates

Our brand new ECO MODE LED Emergency Slim Bulkhead comes in 4000k and is a suitable product for internal and external applications. The ECO MODE LED Emergency Slim Bulkhead also comes as a [standard version](#) or as a [microwave sensor version](#).

All of our Bulkheads come with an IP Rating of 65 or above, which all electrical products that are designed to be outdoors must have. The IP Rating defines the level of protection offered against the entry of water. If the IP Rating is unsuitable, water may leak in and cause the bulkhead to short circuit
